💼 Professional Experience

Software Engineer(React Js), N D Techland Pvt Ltd   05/2022 – Present | Noida

- Collaborated and coordinated with business stakeholders, project leads, and developers to gather requirements and establish project objectives and deliverables
- Implemented Responsive Design using React , HTML, CSS Framework like: Tailwind , Bootstrap.
- Optimized front-end performance by lazy loading components, optimizing images, and reducing render-blocking JavaScript.

🧩 KEY RESPONSIBILITIES

Implementing State Management: Utilizing state management libraries like Redux or context API to manage application state and ensure a smooth user experience across the application.

Integrating with APIs: Consuming RESTful APIs endpoints to fetch and manipulate data, ensuring seamless integration between the frontend and backend systems

Optimizing Performance: Identifying and implementing performance optimizations such as code splitting, lazy loading, and caching strategies to improve application speed and responsiveness.

Implementing Responsive Design: Creating responsive web applications that work seamlessly across various devices and screen sizes using CSS frameworks like Bootstrap or responsive design principles with Flexbox and Grid.

.

🧩 SKILLS

- React js
- JavaScript
- jQuery
- Bootstrap
- CSS3
- Tailwind CSS
- HTML5

📁 Projects

Human Resource Service Provider Applications, HireJobIndia 🔗

- Developed a responsive dashboard application using ReactJS, Redux for state management, and Axios for RESTful API integration.
- Designed and implemented reusable UI components, reducing development time by 20% across the project.
- Collaborated with backend developers to define API specifications, ensuring seamless integration between frontend and backend systems.
- Optimized API calls by implementing caching mechanisms, reducing server load and improving application performance.
- Implemented secure payment processing using Stripe or Easebuzz APIs, ensuring seamless transactions for users.

E-Commerce Web Application, Angavastram 🔗

- Developing Responsive user-facing application using ReactJS, Redux for state management, and Axios for RESTful API integration.
- Building Modular , Reusable custom components..
- Experienced in Consuming Restful APIs and state management in ReactJS.

- Developed a responsive shopping cart component with features such as item quantity adjustment, removal, and subtotal calculation, ensuring a smooth checkout process.
- Implemented secure payment processing using Stripe or Razorpay ⧉ APIs, ensuring seamless transactions for users.

🎓 Education

Bachelor of Technology (Computer Science and Engineering),   2019
Dr. A.P.J Abdul Kalam Technical University

🗂 Certificates

- Certificates on Six Sigma .
- Certifications on Java

🧩 Languages

- English: Professional
